Credit Capacity Summary [- \(More Info\)](#)

This credit rating was assigned because of D&B's assessment of the company's financial ratios and its cash flow. For more information, see the "[D&B Rating Key](#)".

D&B Rating: ER6

Number of employees: ER indicates 10 to 19 employees

Certain lines of business, primarily banks, insurance companies and government entities, do not lend themselves to classification under the D&B Rating system. Instead, we assign these types of businesses an Employee Range symbol based on the number of people employed. No other significance should be attached to this symbol. The ERN should not be interpreted negatively. It simply means we do not have information indicating how many people are employed at this firm.

Below is an overview of the company's rating history since 1995-07-14

D&B Rating	Date Applied
ER6	2008-11-18
1R2	2008-11-13
2R2	2002-04-09

Financial Stress Class Summary [- \(More Info\)](#)

Moderate risk of severe financial stress, such as a bankruptcy, over the next 12 months.

The Financial Stress Class Summary Model predicts the likelihood of a firm ceasing business without paying all creditors in full, or reorganization or obtaining relief from creditors under state/federal law over the next 12 months. Scores were calculated using a statistically valid model derived from D&Bs extensive data files.

Incidence of Financial Stress:

Among Businesses with this Classification: **0.24 %** (24 per 10000)
 Average of Businesses in D&Bs database: **0.48 %** (48 per 10000)
 Financial Stress National Percentile : **61** (Highest Risk: 1; Lowest Risk: 100)
 Financial Stress Score : **1497** (Highest Risk: 1001; Lowest Risk: 1875)

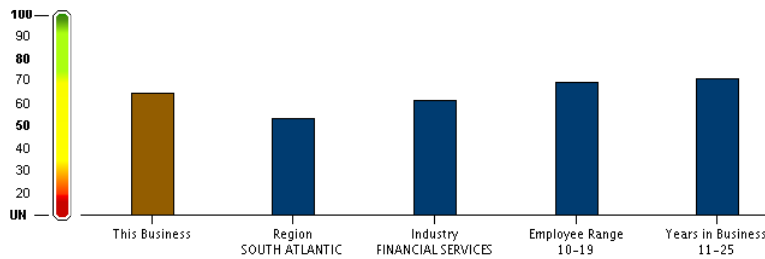

The Financial Stress Class of this business is based on the following factors:

- Low proportion of satisfactory payment experiences to total payment experiences.

Notes:

- The Financial Stress Class indicates that this firm shares some of the same business and financial characteristics of other companies with this classification. It does not mean the firm will necessarily experience financial stress.
- The Incidence of Financial Stress shows the percentage of firms in a given Class that discontinued operations over the past year with loss to creditors. The Incidence of Financial Stress - National Average represents the national failure rate and is provided for comparative purposes.
- The Financial Stress National Percentile reflects the relative ranking of a company among all scorable companies in D&Bs file.
- The Financial Stress Score offers a more precise measure of the level of risk than the Class and Percentile. It is especially helpful to customers using a scorecard approach to determining overall business performance.
- All Financial Stress Class, Percentile, Score and Incidence statistics are based on sample data from

Norms	National %
This Business	61
Region: SOUTH ATLANTIC	48
Industry: FINANCIAL SERVICES	57
Employee range: 10-19	66
Years in Business: 11-25	68

Region: SOUTH ATLANTIC
 Industry: FINANCIAL SERVICES
 Employee range: 10-19
 Years in Business: 11-25

This Business has a Financial Stress Percentile that shows:

- Lower risk than other companies in the same region.
- Lower risk than other companies in the same industry.
- Higher risk than other companies in the same employee size range.
- Higher risk than other companies with a comparable number of years in business.
